HIS DYING WORDS.

"Tell my friends to be brave and fearless and remain loyal to the great common people."
 —Gov. Wm. Goebel.

FOR WATER WORKS.

A company has been incorporated under the name of Montgomery Water Co., and will ask permission of the city council to lay water pipe under the streets of Mt. Sterling. We are anxious, exceedingly anxious, to see water works in Mt. Sterling. So anxious and so zealous is a water supply that we would urge our representatives in council to be careful not in any way to tie the city to that some one may have a privilege to lay pipe and then selves not in position to construct a plant would prevent others from building. Be sure if one firm has a right, another is not coming in as a competitor. It occurs to us the first move would be to show capacity for constructing, and as evidence of sincerity, a deposit of say \$10,000 in one of our local banks to be forfeited to the city in the event a plant, according to agreed specifications is not constructed within a specified time. And further, it would be wise to know just where the mains would run and the water rate to be charged both to citizens and the city. Otherwise the company, should it construct a plant, would be in position to demand just so much and could make for itself rich resources, while the city would suffer. We want a plant of sufficient capacity to induce manufacturers, to supply the city and our citizens with an abundant supply of good wholesome water. A franchise is one thing and water works plant is quite another. A water plant here, furnishing Mt. Sterling, as it now is, may grow to be, would be valuable. We can have the best plant, an abundant supply of wholesome water at a reasonable rate. In our opinion the way to accomplish this is to have rates named. Give one party the privilege to lay water mains and should another try the same thing an injunction would stop them. Again, why not the city construct and own her own plant.

We want water works, but advise caution.

FOR VICE PRESIDENT.

Some of the Republicans want W. S. Taylor to become McKinley's running mate. Better send him out to deal with the Filipinos. He looks like a Spaniard, acts like one, it may be he is one. McKinley would be wise if he would send Taylor across the waters or dump him.

Former acting Lieutenant Governor Marshall may demand that he preside over the State Senate but the majority of that body will recognize Senator Carter as the presiding officer and hence he will be the presiding officer of the majority of that body.

WHO SAID IT.

Following the assassination of Governor Wm. Goebel, Dr. T. T. Eaton, a great preacher of the Baptist denomination, also editor of the Western Recorder, an accepted State Western orator, is accused of saying: "I am sorry that fellow was killed, I wanted to see him hanged." Dr. Eaton says the accusation is not true and furnishes the testimony of three reputable persons to corroborate him while the accuser, a Mr. Huggins, comes back with the statement, "You did say it," and in this Mr. Huggins' statements are without corroboration.

These gentlemen are amply able to take care of themselves, but we wish to call attention to a few points. First, Mr. Huggins says he was formerly under Dr. Eaton's pastorate, hence we take it he is a Christian man and a Baptist. If, however, Mr. Huggins was a friend to Dr. Eaton, the church which he serves and the denomination of which he (Huggins) is a member, and granting Dr. Eaton did forget himself and make the statement as charged, would it not have been the spirit of regenerate man to have gone to his erring brother, admonish him of his error, rather than to rush into print as an evedropper, assuming odium of such character and proclaiming to the world, "I have got it in for the doctor, his church and the Baptist denomination, and this is my time for evening up." He would undertake the job of blurring the character of Dr. Eaton at the cost of the local church, the denomination and the Christian world.

We do not know Mr. Huggins but of one thing we are sure, he is mistaken as to this charge. Rev. W. C. Jones, one of the gentlemen who testified in behalf of Dr. Eaton, is known personally to the editor of the ADVOCATE, and is a man of truthfulness and can not be induced to lie for any man. What we say of Mr. Jones applies to other witnesses with like aptness. Mr. Huggins is in a mess with the preponderance of proof against him. It is understood by not a few that he is now a member of the Broadway Baptist church, which, if true, may be the reason why he has it in for the pastor of Walnut Street Baptist church, for it is a veritable truth, he it said in shame, that there exists as much feeling between members of the Broadway and Walnut Street churches as does between W. S. Taylor and the Democratic party.

Huggins' retaliation is a flimsy subterfuge and carries with it evidence that he has been guilty of unenviable conduct.

Dr. Eaton is a brainy man, a scholarly preacher, an honest Christian gentleman, who would not harm a living being. It occurs to us that brethren of the doctrines of grace should dwell together in unity.

A circular headed, "Public School Election" has been sent to each white voter in the city. As the election occurs on Saturday this proposition should receive immediate attention. The circular is self explanatory. The efficiency of our public school and its economic administration will no doubt be enhanced by the adoption of the proposition.

Vote "yes."

Governor Beckham is in Frankfort with the State Legislature now in session there. He and he alone will be recognized as Governor. Majorities will govern and it is for Beckham.

When Mr. Taylor was informed of the action of Judge Taft, he observed that he never believed Judge Taft would entertain the case anyhow. He also said the decision had no effect on the merits of the case, nor on his own case.

FOR CONGRESS.

In this issue we announce Hon. Sanford Bailey as a candidate for Congress, subject to the action of the Democratic convention whenever called. Personally we do not know Mr. Bailey but here is what has been said about him:

"Always an ardent and faithful supporter of Democratic nominees and platforms, loyal to party doctrines." If the Democracy will name him as their candidate, he promises to lead the party from under the clouds of Republicanism with such a majority as will forever stand as a rebuke to the party that brought death by the hand of a dastard to our beloved leader Gov. Wm. Goebel. Elliott county always stands for Democratic doctrine. Her majority can be depended on and she now asks recognition by naming Hon. Bailey as the Democratic candidate for Congress.

The special legislative committee sent to Frankfort to investigate the advisability of the Legislature returning to the Capitol, favored the return. The committee found numerous evidences of vandalism around the Capitol and other public buildings, finding among other things, that the clock, used by the late Gov. Goebel in the Senate chamber had been broken open and otherwise mutilated.

W. S. Taylor went to church Sunday without a military guard and after service went home. A brave man is Mr. Taylor.

Eastburn called as Sutton's home to take his 16-year-old daughter Alice to church. The father met him at the door and ordered him away. An altercation ensued, and Sutton followed Eastburn to the road. Weapons were drawn by both men but Eastburn fired first, the other man falling before he could raise his weapon. The shooting created intense excitement, many people who were en route to church having witnessed the duel.

INTO THE COURTS

Taylor Takes His Case Into the Circuit Court by Asking For an Injunction.

SERVED ON BECKHAM AND CASTLEMAN

Judge Taft Claims That His Court Has No Jurisdiction Over the Contents of the Minor Offices.

Proseutants Are That the Democrats Will Not Return to Frankfort for Some Time at Least—Every-thing Remains Quiet.

Louisville, Ky., Feb. 15.—Suits were filed in the circuit court by counsel for Taylor, seeking to restrain J. C. W. Beckham from acting as governor and John H. Castleman from attempting to discharge the duties of adjutant general. Summonses were served on the defendants at once. The suit will be allotted to one of the circuit judges by a decision on this drawing may not be held for several days. When it is held an application for a restraining order will be made.

The suit is brought by Taylor for himself individually and as plaintiff of Kentucky. The petition asserts that Gov. Taylor was elected to that office Nov. 7, 1899, and afterward received from the state board of election commissioners a certificate of his election, and qualified as governor. The petition continues:

"Since the time of his said qualification to the present time the plaintiff has continuously been and is now performing the functions of the office and is recognized as governor by the other state officers of Kentucky. "But plaintiff says that the defendant, J. C. W. Beckham, is now and for some time has been claiming and pretending to be the governor of Kentucky, and to have the right to perform the functions of said office, claiming that by the action of the board of 1899, one William Goebel was elected governor of the said state, and that he, the said Beckham, was then elected lieutenant governor, and that by reason of the subsequent death of said Goebel, he, the said Beckham, has become invested with the powers of governor of said state. And he is now and for some time has been pretending to exercise the powers and perform the functions of said office in error, aforesaid. He has been pretending to send messages as such governor to the general assembly of Kentucky, and has pretended to appoint the defendant, John H. Castleman, as adjutant general of Kentucky and to treat him with power and control over the military of said state, and the said defendant Castleman is now claiming and pretending to be such adjutant general of the state."

Plaintiff says that by reason of the aforesaid acts of defendants herein great confusion has been produced and is now existing in the state of Kentucky and plaintiff is being greatly hampered and injured in the performance of his duties as governor at the said state.

"Wherefore plaintiff prays for an injunction against the defendant, J. C. W. Beckham, enjoining and restraining him from performing or attempting to perform or claiming the right to perform any of the functions of the office of governor of Kentucky and against the said John H. Castleman from performing or attempting to perform, or claim the right to perform, any of the functions of the office of adjutant general of Kentucky. And an injunction against each of the defendants from interfering in any way with the plaintiff in the performance of his duties or functions of the office of governor aforesaid. He further prays for his costs money, expended, and for all damages to which he may appear to be entitled."

CONFERENCE AT FRANKFORT.

Democratic Members of the Legislature Undetermined Whether to Return to Frankfort or Not.

Frankfort, Ky., Feb. 15.—The committee of democratic members of the legislature which came from Louisville for the purpose of investigating conditions here, and determining whether or not it is safe for the democrats to venture within the precincts of Frankfort, returned to Louisville. The chances are that the democrats will remain in Louisville for some time to come.

The members of the committee declined to hold any conference with Adj. Gen. Castleman or Taylor, and made Custodian Thompson, of the executive building, the go-between. They first sent word to Taylor that before the democrats could think of returning to Frankfort the soldiers must be sent away. No objection, they said, would be raised to a small number for a body guard for Taylor personally. As for the legislature, it needed no protection.

Taylor replied through the medium of Custodian Thompson that the request of the committee was being complied with, but promised that the legislature should not be molested in any way. For the committee Custodian Thompson then stated that the same conditions would exist next year.

Around the state house as expressed by Mr. Thompson, the reply that no assurance could be given, but that there would be an outward show of force, and that all the soldiers would be withdrawn from the gates and would be kept in

the background as much as possible. This ended the conference. The members of the committee said that in their opinion the meetings would continue, but for the present at least. Several of them expressed a personal willingness to return to Frankfort.

AN INJUNCTION DENIED.

Judge Taft, of the Circuit Court, Claims to Have No Jurisdiction Over Kentucky Contest Cases.

Cincinnati, Feb. 15.—In the circuit court of the United States Judge W. H. Taft denied the motion for a preliminary injunction in both of the cases from Kentucky. In addition, the attorneys in the cases most of the members of the bar of Cincinnati, Covington and Newport were present and the court room was unable to hold all others wanting admission. Judge Taft occupied less than a minute in deciding the opinion of almost 4,000 words. While the court held that no injunction would issue under the bills, yet it also held that after the cases had been heard in the state court they could get in an error for review in the United States supreme court.

After the decision was announced former Gov. Bradley and his associate counsel announced that they were unable to state what would be the next step of the republican state officers of Kentucky. Counsel for the plaintiffs held a long consultation in the law library after the announcement of the decision. Gov. Bradley and his associate counsel will be of the ultimate possibility of a hearing of these cases in the United States court as indicated by Judge Taft, but at present counsel could not say what would be the next procedure.

Frankfort, Ky., Feb. 17.—An agreement entered into at Georgetown, by which the Taylor and Beckham injunction suits were postponed till February 23, is to operate as a truce in the legal battle over the state of Kentucky, and it is not probable there will be any decisive changes in the situation till then, unless the return of the democratic legislature here next week changes some unexpected feature.

A part of the attorneys on both sides held a meeting and discussed several plans for consolidating the various injunction cases pending in order to avoid a clash between the different state courts in which they are pending, but a final understanding was not reached. A proposition which is said to meet with favor is that all of the suits be consolidated in the supreme court of the state. The suits submitted to a judge of one of the neighboring circuit court districts and excluding both the Jefferson county and Franklin county courts. The reading of depositions in the minor state contests has begun and will occupy the greater portion of the contest board for probably ten days. This testimony of several hundred witnesses is to be read and the proceeding of the board up to the time it renders a decision will be exceedingly monotonous.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce a grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.

See and ask for Scott's Emulsion.

Stirring Resolutions By Montgomery's Democracy.

At a meeting of the Democrats of Montgomery county held at the Court House on Saturday, February 17, 1900, for the purpose of taking action on the assassination of Governor William Goebel, Judge John E. Cooper in a few brief remarks stated the object of the meeting, and on motion he was elected permanent Chairman, W. B. O'Connell, Secretary, and B. W. Trimble, of the ADVOCATE, Assistant Secretary.

On motion the Chair appointed the following gentlemen a Committee on Resolutions: M. M. Cassidy, H. B. Marshall, J. B. Taubler, Newton R. Bright, H. R. Prewitt and W. T. Tibbs, which committee reported the following resolutions, which were unanimously adopted:

We, the Democrats of Montgomery County, coming into incumberment on every law-abiding citizen to speak for our civil institutions in this distressing emergency, do resolve and declare:

1st.—That Democratic Party, the Party of Jefferson and Jackson, of Tilden, Bryan and Goebel, has always stood for constitutional government and the supremacy of the law as interpreted by a partisan press of a pretentious mob, but by the course of law. When in other years some of us, and our fathers, were driven from the polls by hostile bayonets, hunted from our homes, and imprisoned by Republicans, usurpers solely for attempting to vote the Democratic ticket, we learned patience and hope by the things that we suffered, and no assassins were sheltered in our ranks. Against the arrogant lawlessness of our political enemies who were supported by Federal bayonets, reinforced by negro soldiers, the patience, patience and courage of the Democratic Party restored a free ballot and the supremacy of civil law. The recrudescence in the opposing party, of the same flagrant contempt of civil institutions and the same recourse to military force and violence in defiance of our laws and their officers, since before the Democratic Party a second time the duty of restoring the civil order. To this sacred task we solemnly commit ourselves and invite the co-operation of all good citizens until this essential end is reached.

2nd.—We join the whole civilized world in denunciation of the atrocious crime, that deprived Kentucky of her Chief Executive and most illustrious citizen.

3rd.—We stigmatize the methods and the men that compassed the savage assassination of our beloved elect, that rebuffed, for days, with violence of arms, the civil officers and the detectives from the ambush provided in the Executive building, and safely covered the retreat of the bloody violation, by the tactics of a suborned and partisan soldiery; that punished with imprisonment the first messenger of a court of justice that succeeded in penetrating their military lines; that with smirking contempt, resisted the Sheriff's process, and dishonored the sacred writ of habeas corpus, and sought incessantly to derive emolument from the flagitious work of the assassin.

4th.—We heartily endorse the efforts, now being made, to erect an appropriate monument to perpetuate the memory of Gov. William Goebel, and request all citizens to contribute to the fund, who love the cause for which he died, "The Great Common People."

5th.—We favor an amendment to the Constitution abolishing the secret ballot and restoring the open vote voting of the fathers, with a public record of each man's vote preserved and accessible to the public.

6th.—We petition our Senator and Representative to labor for the immediate enactment of a universal registration, restricting suffrage to those who shall have registered at least three months prior to the day of election, making a clear poll tax record and receipt a pre-requisite to registration; providing the penalty of disfranchisement, fine and imprisonment for false registration or illegal voting; making all election officers liable to the same penalties in higher degree for any violation of the election law.

7th.—Our counsel is for conciliation and patient waiting for the omnipotent voice that will soon be uttered from the court of last resort.

8th.—To the brave and brilliant Beckham we send our word of cheer and utmost confidence. In hands so conservative, strong and true, Kentucky's sacred trust will be well guarded.

9th.—To Henry Watterson, the chivalrous and peerless in his sphere, who has stood in the storm-center of evoked hate and measureless corruption and violence, with calm, unflinching front facing demonic threats of flame and blood, while battling for the right; to him and the men who grandly provided him, his vast platform of utterance, we extend our heartfelt thanks and give unstinted praise.

10th.—That J. C. S. Blackburn is worthy of any crown a grateful people can wear for his stainless brow. Standing with other mighty leaders, against and unflinching courage kept back the designs of blood and redemption from the State from chaos. He stood over the column of our hopes, and his voice was heard above the storm, calm, potent, reassuring. His heroic presence and trusted hand beat back the tempest of human passion, and the sea was still before him. Generous and self-forgetting, he could never desert a friend or quell before indignant dangers and death. He was the friend of our martyred Goebel, and exemplified the jeweled watchword of our party, that was coined in the heart and fell from the death-clipped lip of our heroic dead, "Be fearless and brave and loyal to the great common people."

And may Almighty God help all our great leaders to continue to "Be fearless and brave and loyal to the great common people."

Gorman Sees the Trend of Events.

A telegram from Washington of the 15th says: Ex-Senator Gorman, was at the capital yesterday for the first time since the present session of Congress assembled, in an interview with a reporter said that all his efforts heretofore had been directed against the re-nomination of Mr. William Jennings Bryan as the Democratic candidate for the Presidency, he believing it would not be wise, but that he was now convinced "that nothing can prevent his selection as the head of the Democratic ticket. He certainly," added Senator Gorman, "has the people behind him to a remarkable degree."

Asked if he would support Bryan if nominated, he replied:

"Certainly. I supported him in 1896 and I shall again this year. I do not propose to desert my party." He expressed the opinion that his party's prospects were improving, saying that the Niagara canal transaction and the Philippine problem were helping the Democrats. The passage of the currency bill he also thought would help the Democrats, because it would remove danger of free coinage of silver and bring back to their party men who left it in 1896 on the silver issue.

POSTPONEMENT

Of Beckham Injunction Suit At Georgetown.

The injunction case of Beckham against Taylor, which was to have been argued in the Circuit Court before Judge Cantrell at Georgetown on Friday, did not come up for a hearing. The attorneys agreed to leave it in statu quo until next Friday, February 23, at which time, unless something is agreed on in the meanwhile, the whole case will be heard at Frankfort before Judge Cantrell.

"Shore Acres."

It has been already demonstrated by James A. Herne that a play almost plotless and depending entirely upon a portrayal of that which is real without dramatic effects, as in the ordinary plays, can be written with success. In a total ignoring of the traditional, conventional and unreal in stagecraft, and getting far away from artificial devices and supplementing in the stead of—the art—the effect has been a revelation. "Shore Acres" is a dramatic scene, without a word of religion in it. The story is that of a lowly, the every day life of poor farmers and fishermen living on the coast of Maine. It is a psychic study for the thinker, a lesson for the thoughtless, and the impression made upon the spectator by this masterpiece will last a lifetime. "Shore Acres" is in every way a truly great play and it success is justly deserved. A complete scenic production of this ideal work will be given at the Opera House on Friday night, February 23.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, disorients and lessens ambition; vigor and cheerfulness soon disappear when the kidneys are out of order.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit of many people.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar bottle sizes. You may have a sample bottle by simply mailing a note to the Home of Swamp-Root, all about it, including many of the thousands of testimonials from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Federal Courts Closed, State Courts Petitioned.

The Federal Courts were closed to the Republicans by the decision of Judge Taft at Cincinnati.

The contest over the office of Governor has been carried into the State courts by two injunctions—*one against Gov. Beckham, filed at Louisville, and one against Taylor and Marshall, filed at Frankfort.*

The petition of the Republican minor officials for a Federal Court injunction to restrain the State Contested Board from deciding the contests for the minor offices, was thrown out of court by Judge Taft. He held that there was no ground for interference by the Federal Courts; that it was purely a matter for the State courts. Judge Taft stated that he could have rendered his opinion when the arguments were concluded, but that he had taken time to carefully consider all the authorities cited.

NEW TREATY PERTAINING

To the Construction of the Nicaragua Canal.

The text of the new treaty negotiated in relation to the construction of the Nicaragua Canal shows that the purpose of both governments is to not violate the "general principle" of neutralization established in Article 8 of the Clayton-Bulwer treaty. It is agreed that the canal may be constructed under the auspices of the Government of the United States, which Government shall have and enjoy all the rights incident to such construction as well as the exclusive right of providing for the regulation and management of the canal.

To further preserve and maintain the "general principle" of neutralization established in Article 8 of the Clayton-Bulwer convention, the following rules are embodied in the treaty. They provide among other things that the canal shall be free and open in time of war as time of peace, to vessels of commerce and of war, of all nations on terms of equality; but there shall be no discrimination against any nation or its citizens or subjects in respect of the conditions, charges, traffic or otherwise; the canal shall never be blockaded, nor shall any right of war be exercised upon any act of hostility be committed within it; no belligerent shall embark or disembark troops, munitions of war or warlike materials in the canal except in case of accidental hindrance of transit shall be resumed with all possible dispatch.

The provisions shall apply to waters adjacent to the canal within three marine miles of either end. No fortifications shall be erected commanding the canal or waters adjacent. The United States, however, shall be at liberty to maintain such military police along the canal as may be necessary to protect it against lawlessness and disorder.

Instead of the treaty being ratified promptly the opposition to its acceptance in the present form will insist upon its being referred to the Committee on Foreign Relations for Revision and with the instruction to insert the following:

The contracting parties further engage that when the canal shall have been completed, the Government of the United States shall have the right in case the United States is at war with any nation, to take temporary possession of, defend and fortify the canal and its approaches without prejudice to the commercial rights of any other nation guaranteed by the neutrality of the canal.

There seems to be no doubt that the treaty in its present shape cannot get through the Senate.

Hon. William Goebel.

"Tell my friends to be brave and fearless and loyal to the great common people," were the words of our gallant leader, when the demagogue of the assassin's bullet had cut him down and death ended his earthly sufferings.

All real, yet the events at Frankfort on the morning of Jan. 30, 1900, seems too treacherous and cowardly to contemplate. Were I gifted with the oracles of the Most High, I might then pay a fitting tribute to the brilliant man that Kentucky loved and honored.

William Goebel! Let us pause for a brief moment and notice the personality of this great "Democratic leader and hero of the common people, the poor struggling youth, revolving in his fertile brain, plans for the unknown future, when with a master intellect and honesty of purpose, he was to draw around the admiration and esteem of a loyal people, who counted for right, in the proud old State of Kentucky.

All through his brilliant life, even when partisan spirit and selfish greed had excited the fierce passions and ingratitude of men, when he was subject to the bitter denunciations of an unscrupulous press, he was never known to depart from those principles that laid the foundation of his great life, viz: virtue, truth and courtesy. History discloses the fact that all generations, all nations and states have had their idol in the character of a great statesman and leader, but when we study the character of William Goebel from the cradle to the grave, when we consider the dauntless courage and cool determination with which he overcame every obstacle and met the incriminating attacks of false leaders, we can compare him to none other than Napoleon of France. The leaden missile, that sped on its fatal errand, ended the career of a truly great man. He is gone. We can not replace him.

What was ideal and typical of American civilization, is now a dreamless clay, resting beneath a wreath of roses. The usurper and his treacherous followers have thwarted time, in testing the depths of the capacity of William Goebel. A state mourns the loss of her chief, and the clash of bayonets and the tramp, tramp, of Taylor's army, conducted strangely, with the muffled roar of the rolling river, that chants the requiem of a fallen hero. Memory shall ever cluster around the green hills of Frankfort, where sleep the ashes of Kentucky's great one who gave his life in the cause of liberty and in whose blood Democracy will be redeemed.

RAINFROM ECZEMA!

No Torture Equal to the Itching and Burning of This Fearful Disease.

Eczema—which is more than skin-deep, and can not be reached by local applications of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Phil T. Jones, of Miraville, Ind., writes: "I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease. As I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is only a tonic. Swift's Specific—

S. S. S. FOR THE BLOOD

—is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—to the cause of the disease—and will cure the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be free from potash, mercury or any other mineral, and never fails to cure Eczema, Scrofula, Contagious Blood Poison, Tetter, Rheumatism, Open Sores, Ulcers, Boils, etc., It acts upon S. S. S.; nothing can take its place.

Books on these diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

Thomas Barrow bought twelve yearlings at \$26 per head.
Sayers & Stafford made the above sales and they also sold eleven head of 2 year old at \$57.50.

The cast has been the best known people in the dramatic profession. Some twenty ponies and burros, a large number of colored plantation singers, a pack of Siberian bloodhounds and an unusually gorgeous transformation scene, necessitating the utilizing in its unfolding of nine distinct drop scenes, will be some of the features that will arrest the eye.

COMMITTEE CALL.

One for Kentucky Republicans Will Be Issued in a Few Days—Some of the Candidates.

Louisville, Ky., Feb. 17.—Chairman C. M. Barnett, of the republican state central committee, will in a few days call a meeting of his committee in Louisville to set a time for the state convention to elect delegates to the national republican convention. Many names are suggested by the republicans as delegates at large. Among them are W. O. Bradley, Senator Deboe, John W. Yerkes, Sam J. Roberts, W. S. Taylor, Albert S. White and W. A. Gaines.

Those mentioned as possible delegates from the Fifth Congressional district are Postmaster Baker, Charles E. Sapp, Alf Davis, Booker Reed and J. I. James.

It is extremely probable that Baker and Sapp will be the men selected, unless Dr. Babb's name R. I. Jones goes in his place.

SHOT DOWN DEAD.

A Town Marshal Attempts to Arrest a Man Who Was Drinking, and a Murder Follows.

Louisville, Ky., Feb. 15.—A. B. Mosely, town marshal of Fredricks, Caldwell county, shot and killed Floyd Ordway. Ordway was drinking when Mosely attempted to arrest him. Ordway knocked him against a wall and according to report drew a knife with which he threatened to cut the marshal's throat.

They met later and Ordway, who is a very large man, is said to have seized the marshal and began shaking and threatening him, whereupon the latter drew his revolver and fired three shots into Ordway's body. The latter released his hold and fell dead. Mosely was fearful for his safety and walked some miles through the rain to Princeton to give himself up. Ordway was 50 years of age and leaves a family.

A MONUMENT STOLEN.

It Was Erected Years Ago to the Memory of William Taylor Barry at Lexington, Ky.

Lexington, Ky., Feb. 15.—The monument which was erected to the memory of William Taylor Barry, in the court house yard, by the county of Fayette, has been stolen. When the new court house was built it was taken down, and it was the intention to replace it at another point in the yard, but some one stole the stones a few nights ago, and they have just been missed.

Barry was a member of the legislature, speaker of the house, secretary of state, member of congress, United States senator, postmaster general under Jackson, and minister to Spain under Jackson. He was born in Virginia in 1784, and died in Liverpool, while on his way to Spain, in 1835.

The judges for the occasion were the Rev. Messrs. McElroy, Terry, Horton, Spears and Haley, of this place.

Deaths Perseus Poisoned.

Williamsburg, Ky., Feb. 14.—A woman person was poisoned here by eating pork headcheese, which was made in a brass kettle and is thought to have absorbed veridigra. The family of Capt. Charles Martin, of Gray Horse, Mrs. Milburn, George and Will Swearingen, of Bardonia, and Talbott Tydings, of Lily, Ky., and his brother, Carey, ate the cheese. Several hours later they became very sick, and physicians, who were called, worked with them for many hours. All are now out of danger.

Detective Working on a Case.

Richmond, Ky., Feb. 16.—It is stated on good authority that detectives have been here for the past two days quietly working on a case which, it is believed, will lead to the arrest here of one or more persons who know more about the assassination of Mr. Goebel than they care to make public.

Marking the Soldiers' Graves.

Perryville, Ky., Feb. 17.—The committee appointed by the legislature of 1890 to expend \$500 for a monument to the 300 Confederate soldiers buried on the Perryville battle field, one mile west of here, has arranged to have the work begun at once.

BATTLE GOING ON

Boers Make a Stand Near Birds River Occupying a Very Strong Position.

BRITISH HOLD A COMMANDING POST

A Brisk Exchange of Shells Is Being Kept Up Over Dordrecht Both Day and Night.

On the Retreat the Boers Kept Up a Good Rear Guard Action—Enemy Very Active Around Ladysmith—Last—Ladysmith.

Birds River, Feb. 17.—The position near Dordrecht now is that the Boers occupy a strong hill north of the town and that the British hold a commanding post to the south. Both are maintaining a brisk exchange of shells over Dordrecht.

Gen. Buller's Horse, 20 strong, commenced the march from Pookhok Thursday morning over a trackless, level and through a mountainous and difficult country. Early Friday they were fired upon and the firing continued all day and well into the night. The British clearing the Boers out of successive positions under a terrific rifle fire lasting eight hours.

Toward midnight Friday the British forced the Boers at the point of the bayonet out of their last position, an important one overlooking Dordrecht. The artillery duel was continued into today.

The British casualties were eight killed, including Capt. Crahan and

Lieut. Chandler, and eight wounded. The British captured some prisoners and a quantity of forage and provisions.

BULLER'S HEADQUARTERS.

He Has Established Them on Husar Hill, Near Chichester, Where Fighting Is Still Going On.

Chichester, Feb. 15.—Gen. Buller has established his headquarters on Husar Hill. Heavy artillery firing was maintained at intervals by both sides from Wednesday until Friday. The British slowly pushed the advance and their infantry occupied entrenched new positions in front of Husar Hill with slight losses. It is believed that the British worked havoc in the Boer trenches. The Boers are supposed to have moved their big guns back over the Tugela Friday afternoon. The rifle fire has been heard from the whole country is thickly wooded.

The British operations are directed to the capture of the Boer camp where the Boers are strongly fortified and from which they are shelling the British with great accuracy. The British infantry are now disposed along a line extending for seven miles to the small kopjes at the base of Monte Christo hill. From a 6 o'clock Friday morning the British incessantly shelled Monte Christo, with the separating it from Blauw Krans hill on the right.

The British infantry is making slow progress up the hill in the endeavor to occupy Monte Christo, which will enable them to enfilade the Boers on Hlangwana.

Gen. Buller's casualties during the last three days' operations have been about 80. The British forces have now partly ascended Monte Christo hill.

Boers Keeping Up a Good Fight. Jacobabad, Orange Free State, Feb. 17.—Further details of the Boer retreat show that the enemy has been fighting a good rear guard action and occupying successive kopjes in order to allow the moving of the convoy which, however, has been going at a slow pace, the animals apparently being dead.

The latest reports show that the Boer position without eliciting a firing. Another forward movement is regarded as imminent.

Another Forward Movement.

Freer Camp, Feb. 16.—The Boers have abandoned several laagers. Gen. Buller renewed bombardment of the Boer position without eliciting a firing. Another forward movement is regarded as imminent.

suit of the Boer army. The guards have occupied the Boer position at Magersfontein.

Unconfirmed Rumors.

London, Feb. 19.—Rumors have been in circulation at the clubs and elsewhere in London that Gen. Cronje, with an army of 7,000, has been captured. Apparently they emanated from the continent. No confirmation of them can be obtained here.

DETAILS OF THE MOVEMENT.

The British Troops Marched Ninety Miles in Four and a Half Days and Fought Two Engagements.

Jacobabad, Orange Free State, Feb. 16.—Lord Roberts' combinations for the movement of the corps desisted with precision, although obstacles that had not been foreseen had to be overcome. The execution of his plan began at 3 a. m. Sunday. Gen. French rode into Kimberley Thursday afternoon, just when he was due according to the field marshal's time table, having in four and a half days marched 90 miles with artillery and having fought two small engagements.

The relief of Kimberley was accomplished with the loss of only 50 men. Twenty thousand infantry made splendid marches under a sub-tropical sun and through a dust storm to hold the positions which Gen. French took. Lord Kimberley's division, his transport arrangements, the four divisions moving over the sandy veld are fed and watered. It is hardly possible to appreciate adequately the mathematical precision with which every part of the transport department has worked, marching through the day, toiling almost sleepily throughout the night, victualing the men and evolving every hour results from seeming chaos.

"Judge" and "Jurors" Fined.

Clayville, our wicked suburb, was the scene of a unique trial Friday. James Jackson, a colored youth suspected of stealing coal from Lizzie Jackson's grocery, in Clayville, was tried on the charge of petit larceny. Emmet Kirk acted as Judge and six colored served as jurors. The culprit was declared guilty and his punishment fixed at twenty lashes with a buggy whip where they would do it most cruelly. Jackson was made to embrace a bear keg with his arms and legs. The "Judge" weighed the whip with vengeance. The prisoner then had warrants sworn out against the entire party, and Saturday morning Judge Parnell fined the "Judge" and two "jurors"—Peck Alexander and Lewis Cagle—\$15 each—Bourbon News.

Enormous Profit.

H. C. Frick's exposure of the enormous profits of the Carnegie Steel Company, contained in his bill of equity, filed at Pittsburgh, is a startling surprise to manufacturers and business men generally.

It has always been known that the company, which has a capital of only \$25,000,000, was a big money maker, but no one on the outside had any idea that the profits of this year would be \$40,000,000.

It is claimed that the profits for 1899 were nearly \$25,000,000. We can now understand the great advance in iron goods of all kinds.

TRAIN WOULDN'T STOP.

A Young Lady of Kentucky Recovered \$100 Damages From the Cincinnati Southern Railway Co.

Williamstown, Ky., Feb. 19.—Miss Maudie Cram, daughter of Judge Cram, has just been given \$100 damages against the Cincinnati Southern railway for its failure to carry her to this place on one of its fast flyers several weeks ago. Miss Cram had been to New Orleans, and was returning over the Havana Limited. When at Georgetown the conductor told her she would not stop the train at this place, and that if she went over the road farther she would be compelled to pay fare for extra distance she rode.

She was left at Georgetown without a cent of money, where she had to remain over night, borrowing money from strangers to pay her hotel bill. The court allowed \$100 damages, but her attorneys got the amount changed to \$195, so that the railroad company could not take it to the court of appeals.

Fire.

Fire alarm was turned in at 8 o'clock Sunday morning, notifying the Fire Department that Col. A. T. Wood's residence property on Winn street, occupied by R. J. Hunt, was on fire. House was almost a total loss. Insured in Hoffman's agency for \$1,000. Col. Wood will rebuild at once. Mr. Hunt's loss of household effects was heavy by damage, notwithstanding most of it was saved from burning. Insurance \$500 in Bright & Cockrell's agency.

Fire Department answered promptly and did effective work, but the building being frame and subject to quick destruction, and the pipe being slick, the fire was under headway long before the Department could get in effective work. The citizens of Winn street were pleased with the results of the Department.

Our Thanks.

Please allow me as a member of the fire department, to extend our most sincere thanks to Mr. J. W. Hadden for the hot coffee and other kindnesses shown us on the morning of Feb. 18, at the fire at Mr. Hunt on Winn St. We shall ever have a kind remembrance of you, and count him as one of the friends of the Fire Department. A member of Mt. Sterling Fire Department.

F. P. Lynam, of Grassy, has rented the Mrs. Evans property and takes possession this week. C. W. Bush will occupy the property vacated by Mr. Lynam.

NO DENIAL FROM MACRUM.

He is Going to Washington to Testify to His Statement Should He Be Called Upon to Do So.

Pittsburgh, Pa., Feb. 19.—Charles E. Macrum, former United States consul at Pretoria, South Africa, left here for Washington on the Baltimore & Ohio road. Before leaving he said: "I do not withdraw a word of my charges against the British officials in South Africa. If I am called upon, I am prepared at any time to testify to them and furnish evidence of their truthfulness."

Mr. Macrum is evidently delighted over the effect of his statement, made public last week, and says that, although he is not acquainted with Congressman Wheeler, of Kentucky, who introduced a resolution in the house asking for an investigation of his case, he will call upon him while in Washington. The resolution says he is not going to Washington on any special mission, but wants to be on the ground to give his testimony should it be needed.

At Home From the Philippines.

Stanley Anderson has returned to his home in this county after an absence of more than a year. He enlisted in the 3rd U. S. Infantry and went to the Philippines, where in May of last year he was wounded—a rifle ball breaking his arm—thus disabling him from further service. He was in the hospital for several months. Mr. Anderson sailed from Manila on January 13 and reached San Francisco on February 7.

Mr. L. W. Evans, of Bethel, returned a few weeks ago from the Philippine Islands, where he had been doing military duty in the United States army. He received an honorable discharge from his Captain and immediately embarked for his old Kentucky home, being about thirty-four days enroute on steamer, during which time he experienced a most severe six-days' storm on the ocean, and congratulated himself upon arriving alive. We learn he brought with him many souvenirs and relics of battles in which he participated, among the most interesting of which is a Spanish cannon which he succeeded in capturing from a Spaniard. He tells many thrilling experiences of army life among the natives.

Another Claimant.

Jos. Mitchell, a negro, appeared before County Judge Phillips at Nicholasville Thursday, and declared himself to be the legally elected Governor of Kentucky. He said he needed no bodyguard, but only asked that he be given his rights. He was adjudged insane and will be sent to the asylum. (What about Taylor?)

The sale of farming implements, stock etc., by Benj. Bramblett, near Wade's Mill on Thursday, was largely attended, and fine prices were received. Mr. Bramblett will locate in Winchester. Trumble was present in the interest of the Mt. Sterling Advocate.

Mr. D. A. Huddleson has bought the Samuel Owens farm, one and a half miles south of Carlisle on Jackson town pike, 190 acres, for \$2,500. Mr. Huddleson will take possession March 1. By this change Pium loses a valuable citizen and Carlisle gains one. We commend him to the good people of Nicholas county.

STARVED

Slow growth of hair comes from lack of hair food. The hair has no life. It is starved. It keeps coming out, gets thinner and thinner, bald spots appear, then actual baldness.

The only good hair food you can buy is—

BRIEF AND BREEZY.

"Lord save us!" exclaimed the old woman, "John not only wrote home that he's 'laid down his arms,' but they've shot off his legs!"

A colored preacher said last Sunday: "The soul of man is ez hard as a hick'ry nut. You got ter hit it wid a sledge hammer ter get the white meat."

A man committed suicide recently by drinking a quart of kerosene and swallowing a match. This was the most economic taking-off that we have heard of.

We hear of one [Georgia] editor who runs a "cold mine" connection with his newspaper. This is as it should be. When a scriber fails to "come up," he ca shoulder his shovel, dig up a doll.

"I want you," said the old farmer, "to give Bill about six dollars worth of gehoolin'—pervar! you'll take it out in trade. For instance I'll start him on three unshels o' corn; then when that's out, I'll keep a movin' on a couple o' smoke-house hams; I'll give you a young heifer ter larn him writin' an' a home-raised cow to best figures in his head."

"Do you want him to learn any of the higher branches?"

"Well, after he climbs a little you might throw in 'bout a bushel or two o' them, ef you think fit—or say, 'bout a quarter o' beef's worth!"

The Farmer.

Every business of importance, except the farming business, is being organized into combinations and trusts, while the farmer goes it alone. But there is becoming apparent a strong feeling of dissatisfaction among farmers against these combinations formed against them. When the farmers do arise in their might and use that most formidable weapon which they possess, the ballot, many of these monopolistic, greedy corporations will regret that they did not have more consideration for the farmers' interest and welfare.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Tapping Maple Trees.

We see no occasion for changing the present and almost universal method of tapping the trees. The size most used is a half inch bit with a short screw, and if the hole is not bored too deep the wood will dry out and not decay, as is sometimes the case when the hole is bored deeper than two inches in, or the bit is smaller than half-inch. The usual depth is three-fourth to one and one-half inches. No spout should be used that will split or tear the bark from the wood of the tree—American Agriculturist.
